Grain-free

WILD PRAIRIE DOG

BIOLOGICALLY APPROPRIATE for ALL BREEDS AND LIFESTAGES

4 REGIONAL PROTEIN INGREDIENTS  
DELIVERED FRESH | NEVER FROZEN | NO PRESERVATIVES

- Free of antibiotics or added hormones, our free-run chicken is grain-fed on local prairie farms and passed as fit for human consumption before arriving at our door fresh—never frozen and with no preservatives.
- Caught wild from the icy depths of our northern lakes, Lake Whitefish is a member of the salmon family and contains more omega-3 fatty acids than pink salmon and three times more than any trout.
- Native to Western Canada, Northern Walleye is caught-wild from the cold northern lakes of Alberta and Saskatchewan and delivered fresh. Noted for its lean, nutrient-rich flesh, Walleye is an excellent source of easily-digested protein.
- The perfect protein, our Canada Grade A eggs are delivered to us fresh (never frozen, no preservatives) from Alberta's Prairie Farms.

## WILD PRAIRIE for DOGS - GRAIN-FREE
